A TRIUMPH OF SCIENCE!!

“ECONOMY IN FUEL.”

The Eureka Fuel Economizer is a scientifical preparation which augments the intensity of coal and wood heat in the proportion of 33 per cent.

The Eureka will give to any ordinary or middling coal the same value as that of superior quality.

The Eureka prevents the shoots, the cinders and the formation of smoke, which may spoil, in an apartment, so many valuable articles, such as curtains, paintings, etc.

The Eureka burns any kind of gas which destroys the breathable air; and in less than five minutes one can obtain a very brisk fire which will last thirty hours without the addition of fresh coal. The Eureka produces a heat more soft and more concentrated. We guarantee that our preparation produces no injurious effect on the health, and does not affect in any way stoves, ranges, grates, etc. To try it is to be convinced that our product is a triumph of science.

On receipt of 25c. we will mail you a full size package (bearing very explicit directions) with charges prepaid. Each package is sufficient for treating a ton of any kind of coal, in any quantity at a time.

 The Great Working Jersey Herd.

BIG COWS, SOUND COWS,

HEAVY MILKERS, GREAT BUTTER YIELDERS.

Over 100 cows owned at this farm have given from 40 to 67 pounds of milk per day, and tested from 14 to 30 pounds, 2½ ounces of butter in seven days.

Highest weekly, monthly and yearly milk records in Jersey breed held by this herd.
Sires now at Head of Herd:

IDA'S RIOTER OF ST. L., 13656.

Has 21 daughters with full weekly tests, averaging 19 pounds, 41-84 ounces of butter apiece, an averaged unequalled by any other living sire. His dam has a butter test of 30 pounds, 2½ ounces in seven days; highest milk record for week and month of any cow in the Jersey breed. His daughter Ida Marigold won two sweepstakes prizes and many other honors at the World's Fair,

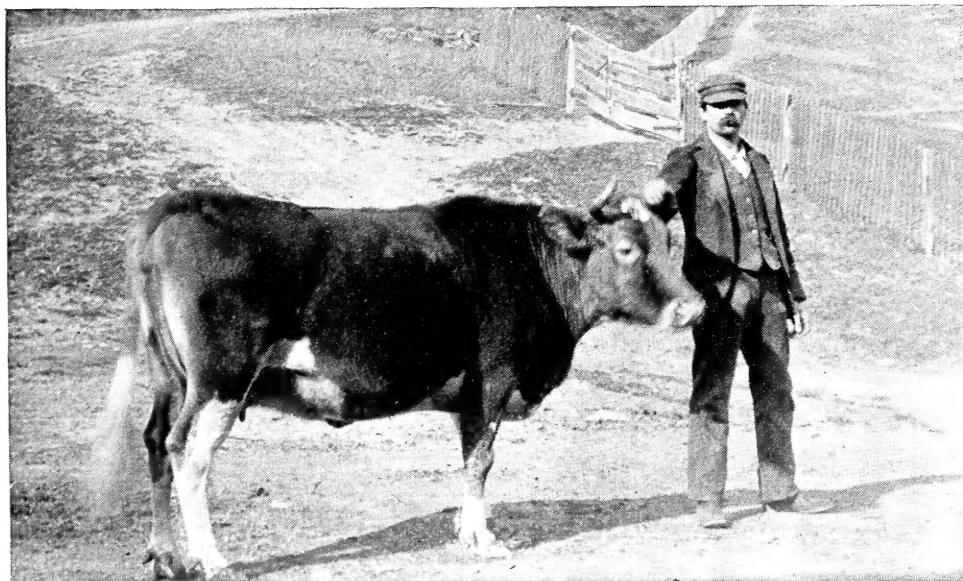

MAJOR APPEL POGIS, 17861.

Won sweepstakes prize at Cotton States Exposition, 1895, and at six of the great state fairs. (Never beaten). Four daughters with standard butter tests. Son of Stoke Pogis (21 tested daughters, 71 tested granddaughters). Dam's test, 18 pounds, 3 ounces of butter in seven days, on ordinary feed; milk record, 48 pounds per day. Has two tested daughters, and still hearty at eighteen years of age.

....Beautiful Norman Herd.

AMONG the Leading Exhibits of Fine Stock are the magnificent **Registered Norman Cattle**, the property of Mr. Chester W. Chapin, Chicopee, Mass.

The essential qualities of these Norman Cows are, an abundant production of very rich **Milk**, each cow producing from 28 to 34 quarts daily. The **Butter** made therefrom commands the highest prices in the markets of London, Paris and St. Petersburgh. It is, moreover, the only butter that will keep sweet for a long period or bear transportation without being salted. The **Meat** is of the highest quality and finest flavor, with exceedingly small waste when dressed for market. The calves bring the highest price of any meat sold in Paris.

They are light feeders—much more so than the Holstein or Durham breeds—are very hardy, and are unaffected by the climate of this country, thriving here well. I have a Bull, eighteen months old, weighing 1,430 lbs.; the steers weigh over 2,000 lbs. each, and the calves from 300 lbs. to 400 lbs. In color they are generally dark brindle and white, head large, eyes prominent, the breast wide and spacious.

The superiority of the Norman breed is established, and it has long been proclaimed the **First Milking Race in the World**.

Information regarding the herd can be obtained by addressing

This cut represents our improved No. 2 machine. Has an improved adjustable feed, by which the operator can instantly change the feed, and without using any tools whatever, so that it will cut just as hard or just as easy as any one may desire, and from coarse (as for vegetables) to very fine. An extra cutter head is also put in with each machine of this grade; and this is the machine which we wish particularly to command for hand use. This machine is also fully warranted, and any part which may break for a year by hand use will be furnished free of charge by us PRICE, \$12.00 NET.

The "GEM" Clover Cutter.

(PATENT PENDING.)

FOR HAND USE.

All iron and steel. Best in the world. Cuts green or dry, fine, even and easy. This is not a cheap cutter, gotten up to last a year and then thrown aside. It has screw feed and adjustable cutter bar, which can be taken out and sharpened or replaced. The steel knives are so arranged that they can always be kept square to the cutting bar, making a clean cut. They can be taken out, sharpened and replaced in few minutes. The shafts are also of steel and the workmanship first class in every particular. Every machine is fully warranted.

Atlantic Transport Line, New York.

Dear Sirs:—It gives me much pleasure to testify to the good condition in which "Ormonde" and my mares were landed from your S. S. "Massachusetts." Both the horse and the mares were in splendid health and none the worse for the trip.

I shall make a point of advising my friends who may be shipping to avail themselves of your route, and I shall feel no hesitation in recommending it generally.

After a thorough investigation of all the lines of shipment, we selected yours, and the condition in which our stock arrived fully justified the choice.

Hoping this letter may be of value to you in bringing your line into public recognition,
I am, very truly yours,

W. O'B. MACDONOUGH.

Wayne, Du Page Co., Ill., September 20, 1892.

Agents Atlantic Transport Line, 4 Broadway, New York.

Gentlemen:—My recent importation of horses that came out on the S. S. "Mohawk" of your line, reached "Oaklawn" without loss, in fine condition.

I desire to compliment your Company upon the possession of so complete a stock boat. During the past twenty-five years I have made annual importations of horses from France and England. It has never been my good fortune to secure such comfortable accommodations for my stock as furnished aboard the "Mohawk." Her great beam, ample height "between" decks, and powerful engines, together with her perfected ventilating machinery, under the supervision of such competent and courteous officers, reduces the risks and cares of ocean transportation to the minimum.

Shippers who appreciate a steady boat, quick time and comfortable accommodations for their stock, will consult their best interests in looking up the Atlantic Transport Company before booking.

Yours truly,

M. W. DUNHAM.

PEAT MOSS

Is a Hair Mattress for Your Horse CHEAPER AND BETTER THAN STRAW?

We carry a Large Stock on hand, and can fill orders for any quantity immediately.

EXTRACT FROM LETTER, DATED AUGUST 13, 1895.

I most heartily recommend the use of PEAT MOSS for stables. It is economical and scientific, absorbing and deodorizing all wet, keeping the hoofs of the animals in a natural and healthful condition, and contributing to the comfort and well-being of the animal.

It is difficult however to obtain the Moss of a thoroughly good quality, and at a reasonable price, and it is well to make a note of the fact that F. J. HODDER & Co., 26 Burling Slip, New York, are the most reliable dealers to patronize. Theirs is the best the market affords.

(SIGNED) W. F. MORSE, M.D., F. S. B. Sc., Westfield, N. J.

EXTRACT FROM "TURF, FIELD AND FARM," OCTOBER 4, 1895.

For the benefit of horsemen who have never used Peat Moss I want to say that it is the only perfect bedding for horses in existence. It is a thorough disinfectant and does not attract flies, besides keeping the stable free from litter, and the atmosphere pure. I consider it an item of interest to state these facts and to add that F. J. HODDER & Co., 26 Burling Slip, New York, are the representative American agents.

Mr. N. A. Cole, of the above paper, who writes this, has used our PEAT MOSS.

TESTIMONIAL.

MR. C. J. SCHELLINGS,

NEW YORK, June 21, 1893.

Dear Sir:—In answer to yours of the 19th inst, requesting us to give you a testimonial as to our experience in the use of Peat-Moss for bedding, we cheerfully comply. We have used it for our horses since 1887, and must say we prefer it to any other for the following reasons:

1. It prevents the strong smell which is prevalent where straw is used.
2. We are of the opinion, it is better for the horses to lie upon, being soft, spongy and natural.
3. It keeps their feet in order. We had no occasion to stuff them since using it.
4. None of our horses are now troubled with corns, as they used to be when straw was used.
5. Because there is much less refuse to take care for.
6. It is much cheaper, and a bed from six to eight inches will last for weeks; of course, that which is wet must be removed at least once a day, and the whole bed forked over each day.

We recommend its use. Yours truly, [Signed] A. HUFFEL'S SONS, 161st St. and Third Avenue.

A GENUINE VIOLET, AND CHARMING GIFT PERFUME,

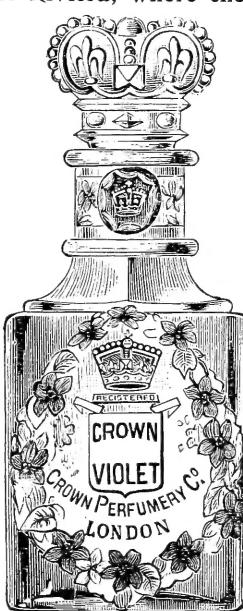

The New Crown Violette.

A Violet Garden in the Riviera, where the Crown Violets are grown.

IT is not generally known that much of what is sold as Violet Perfume contains no violet at all, but is an imitation of violet made from chemicals. The Crown Perfumery Co. have given great attention to this popular odor and are producing it in great perfection. **No chemicals whatever are used**, but the genuine essence of the flowers, gathered as shown above from the violet gardens of the Riviera. This essence is highly concentrated and gives

THE DELIGHT-FUL ODOR OF THE FLOWER ITSELF, at once refined, delicate, rich and lasting.

Small facsimile bottles of this new **CROWN VIOLETTE** have been prepared in order that ladies may test its quality.

ASK YOUR DRUGGIST FOR THE NEW CROWN VIOLETTE.

Price, in a beautiful casket, \$1.50. By sending this amount to Caswell, Massey & Co., New York; Melvin & Badger, or T. Metcalf Co., Boston; Geo. B. Evans. Phila.; Leland Miller, St. Louis; Wilmot J. Hall & Co., Cin., or W. C. Scupham, Chicago, a bottle of this delightful perfume will be sent, prepaid, to any address; or by sending 12 cents in stamps a fac-simile Bijou bottle will be mailed.

WILSON & WILSON-HILL

Lines of Steamers

SAILING REGULARLY BETWEEN
*New York, London, Hull,
 Antwerp and Newcastle.*

ESPECIALLY FITTED FOR CARRYING LIVE STOCK.

“Buffalo,” . . .	5500 tons.	“Ontario,” . . .	4700 tons.
“Francisco,” . . .	5400 “	“Ohio,” . . .	4000 “
“Hindoo,” . . .	5400 “	“Galileo,” . . .	4500 “
“Alecto,” . . .	5400 “	“Richmond Hill,” . .	4700 “
“Martello,” . . .	5200 “	“Tower Hill,” . .	4300 “
“Colorado,” . . .	5000 “	“Ludgate Hill,” . .	4700 “

The above steamers are particularly well adapted for the comfort and safe carriage of live stock; majority of them being fitted with rolling chocks, to insure steadiness at sea.

Special attention paid to the carriage of Horses.

The line has been extensively used for the importation into this country of fine breeding stock from England and France.

On over 70,000 live stock carried during the last three years from this side, the mortality was only about half of one per cent., almost entirely from natural causes, for which vessels are in no way responsible.
